CAREER DEVELOPMENT CENTER

April 2015

To the Reader:

The following report presents the results of an extensive survey and information gathering process conducted by the Career Development Center to obtain first destination information for Bucknell University's Class of 2014. Statistics provided are based upon information first received from a questionnaire conducted at the annual cap and gown distribution each May. From that point through late February (nine months), additional research is conducted on those students who responded as "still seeking" and they are contacted multiple times by mail, email or phone to secure information on their status. The information shown in this report is based upon data confirmed with 99% of the Class of 2014.

The goal of this report is to highlight in detail the post-graduate activity of the Class of 2014. To that end, it is organized in the following manner:

- The Summary of Data (p3) provides a quick overview of all activity reported.
- The Employment Information section (p5) lists alphabetically by college the organizations where 2014 graduates accepted offers of employment. In addition, this section provides aggregate data on the locations and industries of these organizations, salary information, additional offers received and how positions were identified.
- The Graduate and Professional School Information section (p19) lists alphabetically by college the graduate and professional schools where 2014 graduates accepted offers of admission. In addition, this section provides aggregate data on the degrees sought and the fields of study pursued.
- The Breakdown by Academic Major Information section (p27) lists alphabetically by major the organizations where 2014 graduates accepted offers of employment, as well as mean salary information for those who provided this information. A list of graduate schools where 2014 graduates accepted offers of admission, as well as the scholarships/fellowships they received follows.

*(Please note: This data does include students who have declared two and three majors; which will cause the department figures to differ slightly from the overall report figures.)*

Finally, a copy of this report may also be found on the Career Development Center's website, bucknell.edu/cdc. I welcome your questions and comments about this report. Permission for use of this information should be directed to the Bucknell University Career Development Center.

Sincerely,

Pamela G. Keiser  
Executive Director, Career Services
