Bucknell
UNIVERSITY

CAREER DEVELOPMENT CENTER

April 2016

To the Reader:

The following report presents the results of an extensive survey and information gathering process conducted by the Career Development Center to obtain postgraduate information for Bucknell University's Class of 2015. Statistics provided are based upon information first received from an electronic survey conducted at the annual cap and gown distribution each May. From that point through late February (nine months), additional research and outreach is conducted with all students who responded initially as "still seeking". This targeted outreach is accomplished via mail, email and/or telephone to secure information on their status. The information shown in this report is based upon data confirmed with 99 percent of the Class of 2015.

The goal of this report is to highlight in detail the post-graduate activity of the Class of 2015. To that end, it is organized in the following manner:

- The Summary of Data (p3) provides a quick overview of all activity reported.
- The Employment Information section (p5) lists alphabetically by college the organizations where 2015 graduates accepted offers of employment. In addition, this section provides aggregate data on the locations and industries of these organizations, salary information, how positions were identified and additional offers received.
- The Graduate & Professional School Information section (p19) lists alphabetically by college the graduate and professional schools where 2015 graduates accepted offers of admission. In addition, this section provides aggregate data on the degrees sought and the fields of study pursued.
- The Breakdown by Academic Major Information section (p27) lists alphabetically by major the organizations where 2015 graduates accepted offers of employment, as well as mean salary information for those who chose to provide this information. A list of graduate schools where 2015 graduates accepted offers of admission, as well as the scholarships/fellowships they received follows.

(Please note: This data does include students who have declared two and three majors; which will cause the department figures to differ slightly from the overall report figures.)

Finally, a copy of this report may also be found on the Career Development Center's website, bucknell.edu/cdc. Permission for use of this information should be directed to the Bucknell University Career Development Center.

Sincerely,

Pamela G. Keiser
Executive Director, Career Services
